About Us

Since 1983, Bearings have been our only business. with one of the Mumbai's largest bearing inventories SNKB Bearing store has over 15000 different item available for shipment with additional items arriving daily. We take pride in understanding the customer's specific requirements and provide technical sales experts to identify the best solution for any application. SNKB have strategically located and stocked warehouses focusing on delivery requirements of our customers. We have accomplished this by selectively establishing our product lines researching our customer needs, from the smallest to the largest at competitive prices. Everyday low price - SNKB's prices are typically lower than the price of major bearing manufacturers and suppliers of comparable world class quality bearings.

Special price quotations are available for volume business or to meet competition.

SNKB is one of the best source for bearing no longer in regular production and other hand to find items. SNKB is totally situated to handle same day emergency air shipments. We supplies it's product's in mainly for the businesses relating to precision machine tool, automobile, agricultural machinery, locomotive and rolling stock, motor and electric appliance, engineering machinery, mining machinery, petroleum and chemical engineering, aviation and spaceflight, natural defense and the like.
